📍 District 9, Ho Chi Minh City 👤 Github: [github.com/quidev2505](https://github.com/quidev2505) 📁 Portfolio: <https://quidev.vercel.app/>

## SUMMARY

I am a Frontend Developer with over 1 year of experience specializing in ReactJS and modern JavaScript. Proficient in building responsive, interactive, and high-performance user interfaces. Strong focus on UI/UX design principles and optimizing web performance. Experienced in using various frontend tools and libraries to deliver efficient and scalable solutions.

## EDUCATION

Can Tho University

2019 - 2023

Courses

Information Technology - GPA: 3.64/4.0 - (Excellent)

## WORK EXPERIENCE

ICT Tech Company

07/2023 - Present

Fresher Frontend Developer

- Developed and maintained responsive web applications using ReactJS and Next.js
- Implemented complex state management using Redux and React Query, reducing data fetching time by 40%.
- Created interactive data visualizations using Highcharts
- Optimized page load times by 50% through code splitting and lazy loading techniques.
- Implemented responsive, mobile-first layouts using CSS and media queries
- Conducted browser-based debugging and performance testing
- Collaborated in an Agile environment, participating in sprint planning and daily stand-ups

Nhat Tam Soft Company

04/2022 - 07/2022

Intern Web Developer

- Developed company websites using HTML5, CSS3, and JavaScript
- Applied principles of responsive web design
- Assisted in basic backend development tasks using Node.js
- Learned and applied Git for version control
- Performed basic testing and debugging of web applications

## SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks/Libraries:** ReactJS, Next.js, Redux, React Query, Context API
- **UI Libraries:** Ant Design, Material-UI, TailwindCSS, Shadcn/ui
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Other:** Responsive Design, Mobile-First Approach, Performance Optimization, Git
